VOLT

SOLAR POWER
MFR

200MFR

50 Watt photovoltaic panel complete with adjustment board and 27 AH battery

200MFR2

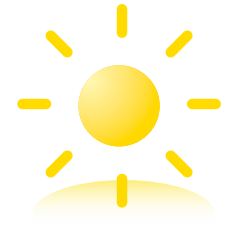

90 Watt photovoltaic panel complete with adjustment board and 27 AH battery

Features:

- photovoltaic panels can be combined with all TAU 12 V operators
- no need for power lines or a smart grid

Pros:

- easy and quick installation
- ideal when the installation is far from available power lines
- battery ensures that the gate continues to work even in the event of prolonged cloudy weather
- energy saving and environmental friendly
